SUMMARY

I am a dedicated Software Engineering Intern with a focus on backend development using Java and Spring Boot. My experience at Noida International Airport has provided me with hands-on exposure to system integration and REST APIs. I am adept in problem-solving with over 600 LeetCode challenges solved, and I have skills in Python and PostgreSQL for data management. I thrive on learning and applying new technologies

EXPERIENCE

Software Engineering Intern

Noida International Airport

📅 02/2026 📍 Noida, India

An international airport in Noida, providing modern amenities

- Learning and working with Java G Spring Boot for backend development
- Gaining exposure to IBM MQ and messaging-based system integration
- Understanding REST APIs and microservices architecture
- Assisting in debugging and monitoring system alerts
- Using Git and Maven as part of the development workflow

EDUCATION

Bachelor of Technology

Galgotias University

📅 08/2022 - 06/2026 📍 India

Class XII

Dev Memorial Public School

📅 04/2021 - 03/2022 📍 Garhmukteshwar

Class X

Dev Memorial Public School

📅 04/2019 - 03/2020 📍 Garhmukteshwar

PROJECT

Trolley Project

Developed **REST APIs** for data operations ,system interactions

STRENGTHS

- **Problem Solving** Demonstrating strong logical and algorithmic thinking
- **Java Expertise** Proficient in Core Java, OOP principles, and efficient data structure implementation
- **Python** Skilled in Python scripting and automation techniques
- **Communication** Clear, concise, and effective in both technical and general communication

KEY ACHIEVEMENTS

Java Program Development

Built multiple Java programs solving data structure and algorithm problems with optimized logic

LeetCode Challenges

Solved 600+ questions on LeetCode, demonstrating strong problem-solving and algorithm skills

SKILLS

Gmail	GitHub	Java
SpringBoot	IBM MQ	REST
Microservices	Git	Maven
Core Java	OOP Principles	
Data Structures	Python
